Warren, Wednesday, Jan. 17.

Know Nothingism. Our neighbor of the Democrat takes us to task for not entering into the melee about the Know Nothings, and dolefully laments our 'non-commitalism, which he attempts to show is entirely inconsistent with our duty to the Repub-

No doubt the Democrat is entirely sincere in his love for the Republican cause, but we may be excused, we humbly hope, if we do not appreciate the propriety of asking his advice in our efforts to overthrow the corrupt party of which he is the County organ. In spite of ourselves, we feel a little, a very little repugnance to taking as a teacher of consistent Republicanism one who can stand upon the Baltimore Platform with its crawling devotion to Southern interest, and vet denounce sectional sm; who can endorse Franklin Pierce with his veto of the River and Harbor bill, and yet profess to favor the improvement of our lakes at the national expense; who can back up Douglas' Kansas iniquity, and yet pretend to Anti-Slavery principle; who can rejoice over the triumph of Missouri Slaveholders in the Kansas election, and yet try to befool his readers into the belief that the Anti-Slavery victory in northern Nebraska is proof that there was no danger in opening to slavery the territory south of the Compromise line; who can put on the most yearning love for the poor laborer, and yet support a free trade policy which is bringing ruin upon the men of toil in all departments of labor, more crushing than anything the country has known since 1837. We really think we may be pardoned if our conseience does not twinge when such an one chides us for no! thundering against the Know Nothings.

We are told that J. R. Giddings and Frank Wade have denounced the order. and that it therefore becomes our duty to follow suit. We can only say that we have never professed to be the especial organ of any member of Congress, and cannot therefore see how their denunciation of a secret society would impose upon us the duty of playing echo to them.

But our neighbor is out in his statement of facts. Mr. Giddings has not denounced the ends aimed at by the order, but has simply rebuked the blacks guard Sollers. and opposed all secret political platforms.

attain, as Republicans, is the annihila- is a clear probability of excluding slavery. tion of all national Slavery: to destroy the monster wherever the power of the Federal Government can, by constitutional means, be made to reach it. For the sake of reaching this object we have consented to drop many issues which as individuals we think important; so that we may unite all who agree upon the vital, if we really mean to be a free
